

AWAKENING THE ILLUMINATED HEART

Offered for the *first time* in its entirety in **San Diego!**

Somewhere in time we lost the knowledge on how to access the wisdom inherent in our hearts. The knowledge of the sacred space from which many Master's have performed miracles has recently been gifted back to us from the Ascended Masters and Archangels. They are helping us "remember" how to not only access this place called the *Tiny Space of the Heart* but to **LIVE** and create from that place.

Learn to take your consciousness from the polarity of the brain into the unity of this Sacred Heart Space and create a permanent human light body, the MerKaBa, perfectly aligned with Mother Earth & Father Sun as we prepare ourselves for humanities great SHIFT and ultimately live from our HEARTS.

In this 4-day workshop, everything will be given to you: **Healing** of that which keeps you from going deeper into the heart; **how to enter the Sacred Space of the Heart**; the **brain-gland-chakra** relationships and the **Beams of Light**; **the opening of the 3rd Eye** and the clear understanding of **how to create from the Tiny Space of the Heart**.

In this teaching, the Heart centered **Mer-Ka-Ba activates automatically** and effortlessly and **becomes permanent** immediately.

When the Merkaba is directly connected to the Sacred Space of the Heart, that person's life becomes interconnected to all life everywhere and moves into higher consciousness naturally.
